All 115 & 230 VAC Burners AFG and SM now have Igniters not Transformers. Transformers remain in Inventory As an Option and as Replacement Parts. 230VAC AFG/SM Igniters are in stock.

All SDC (12V) Burners now have Genysis Controllers. They prevent fuel oil from saturating the burner/insulation if the igniter fails. Note: The Genysis Controllers are available for AFG/SM/ADC 115/230v Burners as an option.

Wayne Burner Replacement Igniters are also in stock. MSR and EHR Burners 115/230. Specify either a M Base Plate or an E Baseplate then add either the 115VAC or 230 VAC Igniter to complete.
